

**Lawrence
Livermore
National
Laboratory
presents**

with Steve Wolf

Ever wonder how movie stuntmen stay safe when they are on fire, crashing through windows, or jumping from buildings? Do you know how science is used to help solve the challenges of movie-making?

Veteran Special Effects Coordinator, Steve Wolf, shows you how in "Science in the Movies," a lively one-hour stage demonstration of some of the "behind the scenes" wizardry used to create the spectacular stunts and feats seen in movies and on television.

Lawrence Livermore National Laboratory presents two performances of "Science in the Movies" at the Amador Theater in Pleasanton on

Tuesday, August 9. Showtimes are 2-3 p.m. and 7-8 p.m.

The Amador Theater is located at 1155 Santa Rita Road in Pleasanton.
Seating is on a first come, first seated basis.
